

NEWS LETTER **September 2015**

Warm regards from Soroti, the mother end of Uganda in the great pearl of Africa. It has been a season of great achievements, growth and learning especially when dealing with the shoots of Africa's next fruitful generation,

Goshen Nursery and primary school has had very enjoyable moments in the past many months, Just like the motto says; "run and win the prize", the school is moving towards

the goal of creating the best education for the children in Teso and Uganda as a whole. Now we have about 600 children in both pre- primary and primary school. This year we have our first candidates who will be sitting their final primary leaving examination in November.

Below are some of the children that do not yet have sponsors and they are on the waiting list, you could be part of the life of this children by offering love through education sponsorship

Even the less privileged have been offered an opportunity to study through the sponsorship program that supports some needy children in partnership with the school.

The number of the children sponsored has increased to sixty. We are glad that some of these children have been able to go secondary school now through this program.

We believe that we shall have seasoned Christian leaders of our lovely nation very soon. We hope that God will touch the hearts of many more people to sponsor some of the children that are still on the waiting list. Below is a picture of some of the sponsored children.

Below: Some of the grown up children are now able to guide the other younger ones in many areas especially in career and social life. Peter Gordon and Kiisa Salem as seen in the picture below are showing an example to the rest of the children.

Goshen has also been able to create good relationships with other schools both local and international in order to expose the children in diverse believes, cultures and learning experiences.

For instance, we have been able to have a sister school relationship with Glean eagles chaxay elementary in Canada where children will be doing exchange in art, music and also writings among other creativities.

Benjamin Okoth, who shed tears uncontrollably when he heard the good news from Dr. Joan that he had got a sponsor in June, has been part of this team of children in the art exchange. Benjamin is a disabled child but with a special gift in drawing and painting, he is clever and also comes top in his class every term. Above is a picture of Benjamin and another when he is doing painting of the school's art piece.

Baby Joan:

Baby Joan has grown, she made two years in June 2015, We bless the Lord for her life and how God has sustained her in health and development, She is now a big girl and may be next year she will begin baby class. Thanks for your prayers and love for baby Joan and the family at large. Look, below comes the picture of the BIG JOAN WINNIE ONYANGA.

Challenges and future plans

In every developing program, there are challenges. Goshen has in the past period had challenges among which are;

The school still needs space for expansion to cover the development plans and for sporting activity.

The class rooms are also not completed. They are still being worked on within the limited resources

The means of transport is also small, the two vans in use are small, they are fourteen-seater and yet many more children would like to use the facility.

All in all, we believe that God has been faithful and he has carried Goshen on from the past ten years, we celebrate the new decade with you, our friends, the public and shall forever be thankful that you are part of this success.

We believe the future is the limit when we are together,

With love, and wish you a happy time as we close to the end of the year.

Winnie Onyanga,
